*Cook. Create.*  
**INSPIRE.**

NEFF truly believes that the kitchen is the heart of the home and creating a solution for every cooking style is part of our DNA.

NEFF has a range to suit every cooking style. Our brochure unfolds the key brand attributes of every category.

Slide & Hide® creates kitchen envy with the iconic disappearing door and the additional ranges packed with features and functions can suit all kitchen styles and layouts.

# NEFF's iconic SLIDE & HIDE® DOOR

The iconic Slide & Hide®: the first and only fully retracting oven door. Only from NEFF.

**What makes our Slide & Hide® ovens so special:**

- Wide range of features suited to all cooking styles.
- Seals the food quickly making it ideal for multi-level cooking. A perfect choice for baking and roasting achieving succulent roasts and even bakes.
- The range includes an oven for every cooking style and budget. Designed using a value class to identify each collection.
  - Our N90 range is our most premium range followed by N70 and N50
  - For perfect design alignment the ranges have been curated to be installed vertically or horizontally within their own value class aligning and matching their fascia panels.
- Our Single Slide & Hide® ovens seamlessly integrate into various kitchen designs. They can be combined with other Single ovens side by side or with Compact ovens and warming drawers, both horizontally and vertically, offering versatility in design and cooking solutions.
  - One notable advantage is in an Accessible kitchen, where these appliances offer many benefits. They can be installed at a suitable height, and the retractable door provides full, safe access to the oven cavity.
- Made in Germany in our bespoke NEFF factory.

# Steam cooking EXPLAINED

## WHAT IS IT

VARIO STEAM®	INTENSIVE STEAM
Vario Steam® combines conventional hot air cooking functions with Steam.	Intensive Steam has all the functions of Vario Steam® combining hot air and steam.
Ducts in the back plate release steam into the oven quickly and evenly adding steam into the oven category.	It also uses 100% (pure) steam to gently cook a variety of dishes.
Vario Steam® has 3 levels of steam: <ul style="list-style-type: none"><li>• Level 1 (Low) Steam</li><li>• Level 2 (Medium) Steam</li><li>• Level 3 (High) Steam</li></ul>	The Intensive Steam now means that the steam temperature will reach 120°C – by increasing the temperature it reduces the cooking times for certain foods.
Both steam approaches can be added to: <ul style="list-style-type: none"><li>• Circo Therm®</li><li>• Top and Bottom Heat</li><li>• Circo Roasting</li><li>• Bread Baking Setting</li></ul>	

## Vario Steam® & Steam Boost

The difference between these two features is that with Vario Steam®, once the level of steam intensity is selected, the appliance automatically adds in the steam at selected intervals whereas with Steam Boost the steam is manually added by the user for a 3 minute duration, repeatable for up to another 9 times.

### Vario Steam®

Vario Steam® has 3 levels suitable for:

- **Add Level 1 steam for pastries and cakes** - to give an even golden crust, better rise and volume. No soggy cakes here just beautifully moist.
- **Perfect roasted meats can be achieved by adding level 2 steam**, no basting, just a golden crisp skin with tender meat inside. Plus less shrinkage.
- **Add level 3** high steam to Circo Roasting 200°C for easy **roasties**. No part boiling, a touch of olive oil for crisp and fluffy results.

### Steam Boost

**This feature is primarily for home-baked bread**, giving a crisp outside and nice and fluffy on the inside:

- It delivers fast and intensive steam
- Oven is pre-heated
- A bread baking stone can be used
- Once to temperature press the Steam Boost\* button to inject 3 mins of steam.
- This can be done up to 10 times during the programme.

\* The feature is called Steam Boost but on the appliance fascia this is Steam Jet.

## Intensive Steam (Full Steam)

Increasing the temperature reduces cooking times for produce that cooks more slowly, such as root vegetables, rice dishes and pulses. Cooking these food types more quickly has the added benefit of retaining more vitamins.

### Key Benefits

- **Saves Time** – increasing to 120°C means it can reduce cooking times.
- **Healthier Way to cook** – more vitamins and nutrients retained due to quicker cooking time.
- **Defrost** – this programme introduces steam to the cavity to ensure frozen food does not dry out. Temperature range 30-60°C.

## Other Steam Options

### Reheat

The reheat function introduces steam during the reheating process so that food will not dry out. This causes the food to taste as if it is freshly cooked. Even crispy food like bread will regain their crispy crust. Temperature range 80-180°C.

### Dough Proving

Bread will prove quicker using this function than at room temperature. Temperature range 30-50°C.

# Key Functions Guide

## Cooking Functions

- **CIRCO THERM®**  
Circo Therm® evenly distributes the hot air throughout the oven, allowing for consistent cooking results on multiple trays simultaneously.
- **CIRCO THERM® GENTLE**  
Circo Therm® Gentle is designed for delicate cooking tasks that require gentle heat and precise temperature control. Operating at a lower temperature, it is perfect for baking delicate pastries, or slow cooking.
- **CIRCO ROASTING**  
Circo Roasting is the ideal function for cooking meat and poultry. The circulating hot air helps to sear the exterior of the meat quickly, locking in juices and flavour while creating a crispy, golden-brown crust. Meanwhile, the interior remains moist and tender.
- **CIRCO THERM® INTENSIVE**  
Uses a combination of Circo Therm® and bottom heat, ideal for foods that need a crispy underside like pizzas or specialty breads. It can also be used for one stage pastry such as lemon meringue pie, eliminating the need for blind baking.
- **TOP/BOTTOM HEAT**  
Providing conventional cooking heat sources at the top and bottom of the oven. Heat travels to the centre of the oven by natural conduction. Ideal for baking pastries and scones.
- **BOTTOM HEAT**  
Providing heat from the bottom of the oven, this method is ideal for pizza bases and pastry cases to create a crispy underside or for bain marie and casseroles.
- **CENTRE SURFACE GRILL**  
When the Centre Surface Grill function is activated, only the centre grilling elements will heat up. Ideal for when cooking smaller quantities.
- **FULL SURFACE GRILL**  
The grill element is situated in the oven roof. It is thermostatically controlled and will cycle on and off to maintain the required temperature.
- **LOW TEMPERATURE COOKING**  
A special setting for hob-sealed prime cuts of meat and poultry. Meat/poultry is placed in a pre-heated dish and transferred into the oven. The low temperature setting uses a fixed temperature to gently tenderise without overcooking, resulting in meat/poultry that is juicy and melts in the mouth.
- **AIR FRY**  
The convenience of an Air Fryer inside the oven. This feature uses the grill and fan to create the same results. Using our Air Fryer and Grill Tray (Z1655CA0) further helps the air to circulate achieving optimum results.
- **BREAD BAKING**  
Bread baking temperature varies between 180°C and 220°C. Ideally suited to baking crusty bread with an open texture. Up to three levels of bread can be baked at the same time.
- **DOUGH PROVING**  
The Dough Proving function provides a controlled environment with a low and consistent temperature ideal for proofing dough. This feature offers home bakers a convenient and reliable way to proof dough, ensuring consistent results and saving time in the bread making process.
- **KEEP WARM**  
An ideal setting for keeping food warm without drying it out before serving. Typically set between 66°C to 100°C.
- **PLATE WARMING**  
Hot air is circulated at up to 65°C to safely warm plates and service dishes in preparation for dinner.

## Special Features

- **HOME CONNECT**  
Control your oven directly from a Smart Device App or Voice Command. You can also download updates and additional functions.
- **MEAT PROBE**  
The Multi Point Meat Probe measures the joint's heat at three points and the Single Point Meat Probe measures in one point, ensuring the right core temperature is reached, so you can take the roast out when it's ready.
- **BAKING AND ROASTING ASSISTANT**  
Baking & Roasting Assistant helps you to Cook Meals with ease, by simply selecting pre-selected food items from the Bake & Roast Assist menu. Select your Meal on the display and you will find a suggested temperature & cooking time. For Baking, Roasting & Grilling the entire process gives perfect cooking results.

## Cooking Functions With Steam

- **VARIO STEAM®**  
Vario Steam® enhances the cooking process by introducing controlled bursts of steam into the oven. Whether you're baking bread, roasting meats, or reheating leftovers, dishes come out with more intense flavour and an appetising appearance.
- **INTENSIVE STEAM (FULL STEAM)**  
Make your favourite dishes healthier with our Intensive steam function. Gently cook your dishes at up to 120°C, to preserve their natural flavour and lock in nutrients. It's easy to operate and also simple to refill the one litre water container – press a button to open the front panel, remove the container, fill it and you're ready to steam ahead.
- **REHEAT**  
Reheat allows you to gently warm dishes again – and thanks to the moisture in the oven, they will look and taste freshly prepared.

## Oven Cleaning Functions

- **PYROLYTIC SELF-CLEANING**  
Pyrolytic cleaning is a self-cleaning system for ovens. The process superheats the oven to approximately 485°C, which burns off any deposits from baking, roasting and grilling. This creates a perfectly clean oven and a residue of fine dust that's easily removed with a damp cloth.
- **EASY CLEAN®**  
For a lightly soiled oven, put approximately 400ml of water and a drop of washing-up liquid in the base pan and then select the EasyClean® programme. It softens baked-on residue so you can just wipe it down, for fast and uncomplicated oven cleaning.
- **OVEN CLEANING**  
A special electronic setting designed to keep EcoClean® surfaces inside the oven as clean as possible. Used on a regular basis, it can keep the oven's interior lining remarkably clean with minimal maintenance required.
- **DESCALING**  
All NEFF steam appliances contain a descaling programme which can be set according to the hardness of the water.
- **BASE CLEAN**  
Base Clean helps clean the bottom of the oven by softening dirt with warm water. After the programme has finished you just have to wipe the base with a damp cloth.
- **ECO CLEAN**  
Eco Clean is a microfine ceramic bead coating on the oven's interior back, top or sides, depending on the model. It has a very large surface area, making it extremely absorbent. It absorbs fat droplets and keeps the inside of the oven clean.
- DRYING FUNCTION**  
Dries the cooking compartment after a steam function.

**AUTOMATIC SAFETY SWITCH OFF**  
For electronic ovens only, this feature will automatically cut in if no changes to the settings on the appliance have been made in a long time, giving you complete peace of mind.

Temperature range	Automatic switch off after
Under 140°C	73 hours
141 – 200°C	6 hours
201 – 250°C	3 hours
251°C	2 hours

## N90 Full Touch 3

The screenshot shows the Twitter mobile app interface. At the top, it says "Hugobos" and "2014年10月1日". Below this is a tweet from user @HUGOBOS, which says "HUGOBOS2014 10月1日(水) 18時30分〜20時30分". The tweet includes a profile picture of a person with glasses and a blue checkmark, and a small image of a book cover. The bottom of the screen shows the Twitter navigation bar with icons for Home, Search, Post, and Profile.

The screenshot shows the Google Play Store interface for the game 'Angry Birds'. The game is by Rovio Entertainment. The price is listed as 'Free'. The 'Get it on Google Play' button is visible. The game has a rating of 4.4 stars from 1,000,000+ reviews. The description mentions 'Angry Birds' and 'Rovio Entertainment'. The background image shows the game's logo and a bird character.

# Get more with HOME CONNECT

## More time for your creativity and your guests.

Connections are important for NEFF and the connections that we make over food are our favourite ones. When we share a meal with family and friends, we share a connection around the table but sometimes we all need a little help. When you're in need of a little creative inspiration, having a partner in the kitchen can make those connections easier and stress free...

## Perfect Partners

With food it's not always about the refined presentation – it's about the flavour, the joy and the pleasure those shared meals bring. Stay better connected with your guests with oven control and monitoring via smartphone, voice or smartwatch. No more dashing back and forth to the kitchen – enjoy the benefits of our technology partnerships for perfect cooking results every time!

## Looking for Inspiration?

Want to find a new way to cook something or have a lot of seasonal ingredients? Spend some time with our recipe partners on Home Connect and be inspired by others!

kitchen stories  
ANYONE CAN COOK

## Got your hands full creating your next dish?

Achieving perfect results has never been easier with Oven Assistant – simply use the Home Connect app or ask Alexa to find the perfect setting for your dish.

## Sharing Favourites

We all have our favourite recipes, the ones that connect us, make us feel nostalgic and the ones that keep us at the table until the last morsel has been enjoyed. Let your oven in on the secret – share oven settings for your favourite recipe for quick, convenient access and it'll be ready to go whenever you feel inspired!

# Optional Accessories for Ovens and Compacts

NEFF OPTIONAL ACCESSORIES	DESCRIPTION	SUITABLE FOR
SHELVES & INTERNAL RAILS		
Z11CR10X0	Full width wire shelf.	N90 & N70 single & compact ovens and N50 single ovens.
Z1608BX0	1 pair of level independent telescopic shelf rails with stop, fully extendible, for non-pyrolytic, non-full steam.	N70 & N90 ovens
Z1608CX0	1 pair of level independent telescopic shelf rails with stop, fully extendible.	N70 & N90 Pyrolytic ovens
Z1608DX0	1 pair of level independent telescopic shelf rails with stop, fully extendible.	N90 Steam ovens
Z1650BE0	2 piece, half depth enamel pan set.	N90 Steam ovens
Z11TI15X0	1 pair of level independent ClipRail telescopic rails.	N50 single and double ovens
AIR FRYER ACCESSORY - AIR FRY FUNCTION AVAILABLE AS A HOME CONNECT DOWNLOAD.		
Z1655CA0	Air Fryer & Grill tray.	Required for Air Fry Function, for NEFF ovens with Home Connect .
INTERMEDIATE PLATFORM		
Z11SZ00X0	Intermediate Floor for combining 2 ovens	N90 & N70
SEAMLESS COMBINATION ACCESSORIES - GRAPHITE GREY		
Z11SZ60G0	Seamless Combination strips - 45cm Compact & 14cm Drawer. Graphite Grey	N90 & N70 Compact Ovens & 14cm Warming Drawer. NOT suitable for 45cm N90 Coffee machine or C24GR3XG1B - N70 Compact Microwave.
Z11SZ80G0	Seamless Combination strips - 60cm Slide & Hide® Single Oven & 29cm Warming Drawer - Graphite Grey	N90 & N70 60cm Slide&Hide single ovens and 29cm warming drawer.
Z11SZ90G0	Seamless Combination strips, metal platform and brackets for Slide & Hide® single oven and selected 45cm Compact ovens in column. Graphite Grey	N90 & N70 single oven and selected 45cm Compact (special single aperture required; not suited to Coffee Machine and C24GR3XG1B)
SEAMLESS COMBINATION ACCESSORIES - STAINLESS STEEL		
Z11SZ60X0	Seamless Combination strips - 45cm Compact & 14cm Drawer. Stainless Steel	N90 & N70 Compact Ovens & 14cm Warming Drawer. NOT suitable for 45cm N90 Coffee machine.
Z11SZ80X1	Seamless Combination strips - 60cm Slide & Hide® Single Oven & 29cm Warming Drawer - Stainless Steel	N90 & N70 60cm Slide&Hide single ovens and 29cm warming drawer.
Z11SZ90X0	Seamless Combination strips, metal platform and brackets for Slide & Hide® single oven and selected 45cm Compact ovens in column. Stainless Steel	N90 & N70 single oven and selected 45cm Compact (special single aperture required; not suited to Coffee Machine)
SEAMLESS COMBINATION ACCESSORIES -OTHER		
Z13CV06S0	Cosmetic decor strip for use between 60cm single and 45cm compact ovens	N90, N70, N50

- Electronic, 6.8" Premium Full Touch TFT Display on all models
- All ovens feature Circo Therm®

1 Measured according to the EN50304, 65/2014. 2 For further information on inverter technology, please go to [www.neffhome.com/uk](http://www.neffhome.com/uk). 3 For Inverter models, the maximum setting offers a time limited boost option for heating liquids. To ensure optimal results and to protect the appliance, the microwave power output is reduced in stages over the first few minutes down to the next power level (600W). After a cooling period, the microwave boost option will be available once more.

# NEFF HOB *Range*

## The right hob for every cooking style

**Cooking and kitchen design are all about creativity and individual taste and the NEFF range of surface cooking hobs have a broad range of hobs to suit all styles.**

- The range includes electric models, for those that like a seamless glass top, or for those that still love gas cooking, our hobs come in a range of sizes and finishes, with some models featuring a large central wok burner.
- NEFF Electric Hobs
  - Venting Hobs – available in 80cm, 70cm and 60cm sizes.
  - Flex Induction Hobs – available in 90cm, 80cm and 60cm sizes.
  - Induction Hobs – available in 80cm and 60cm sizes, all finished in black glass.
  - Ceramic Hobs – available in 80cm and 60cm sizes.
- NEFF Gas Hobs – available in 90cm, 75cm, 60cm sizes, and a variety of finishes.
- All the NEFF hob range have a variety of installation styles to suit all kitchen designs.
- Venting Hobs can be installed as recirculated or vented out, with a variety of solutions.
- Certain flex induction hobs can be installed with our Glass Draft hood next to one another or seamlessly.
- There are a variety of options when it comes to control panels and how to operate. Adding Home Connect means the hob and an equivalent connected NEFF hood can link together via Hob Hood connection, so when the hob is turned on the hood will start automatically.

# Your Guide To Hobs

## Rethink cooking in NEFF's infinite kitchen

A great meal is all about the ingredients and cooking process. And it's the same when it comes to choosing the right hob. If you want flexibility, an electric Flex Induction hob might be what you're after. Or reclaim your space in the kitchen with our Venting Hob. With integrated ventilation you can install your hob on a kitchen island to create a sociable space when cooking. There's a NEFF hob for everyone to get creative with.

## Venting Hobs

- The 2-in-1 Hob and Hood is here. With freedom from a conventional wall or island hood, our integrated cooktop ventilation allows you to reclaim your space in the kitchen. The NEFF Venting Hob is set to create the stylish and sociable kitchen you've always dreamt of.
- Our Venting Hobs offer maximum flexibility in installation options - Unducted, Partly Ducted, Fully Ducted & Ducted out.

Featured model:  
V58PHQ4C0 N70 80cm Venting Hob with new Twist Touch® Control

## Flex Induction Hobs

- For sociable cooks who often find themselves juggling multiple pans, a Flex Induction hob provides any size pan, anywhere cooking within the zones.
- When the zones are activated, pans will receive instant, even and rapid heat transference wherever they are placed. Our range of Flex Induction hobs are available with a number of controls either with a TFT touch screen or using a NEFF Anthracite Grey Twist Pad®.

Featured model:  
T69FUV4L0 N90 90cm Flex induction hob with new Anthracite Grey Twist Pad®

Featured model:  
T56FHS1L0 N70 60cm Induction Hob new Twist Touch® Control

## Induction Hobs

- If sleek, stylish and clean lines are more in keeping with your kitchen design, our Induction hobs provide a minimalistic and premium look whilst providing a quick and responsive cooking surface.
- Cooking with an Induction Hob saves energy and is incredibly safe – there is little residual heat once the saucepan is removed from the hob.

## Ceramic Hobs

- With their frameless design, our Ceramic hobs stand out in any kitchen, and a whole range of options with up to 17 power settings makes preparing the next feast as easy as pie.
- Better still, our enhanced touch control panel provides full flexibility over your cooking.

Featured model:  
T16NBE1L N50 60cm Ceramic Hob

Featured model:  
T27CS59S0 N70 75cm Gas Hob

## Gas Hobs

- For traditionalists who prefer to see exactly how much heat is delivered to their pans, gas cooking provides a robust and reliable way to prepare your favourite dishes.
- You can control your hob by numbers and not by eye with our precise and responsive Flame Select® heat control feature, available across selected gas hobs.

Frameless

## General Features

### COMBI INDUCTION

2 individual induction cooking zones can be combined to 1 large zone with even heat distribution.

### EXTENDED FRYING SENSOR

The sensor automatically adjusts the heat to the pan to maintain an even temperature. This control allows you to cook all dishes to perfection as it maintains a consistent heat preventing overcooking or burning.

### POWER BOOST

More heat when you need it. Power Boost is our smart, time-saving cooking hack. Want to boil your pasta water in a flash? Simply activate Power Boost to heat it much faster. Get a flexible boost for your dishes.

### TWIST TOUCH®

Direct interaction with a twist of your finger. Twist Touch® control lets you select everything with the tip of your finger. Choose your desired cooking zone or select your preferred power level – cooking the easy way.

### ANTHRACITE GREY TWIST PAD®

The Anthracite Grey Twist Pad® allows you to precisely adjust the heating degree of pots, frying pans and grills with just one finger touch. Simply touch the Anthracite Grey Twist Pad® lightly to activate the desired cooking zone, then rotate to select the desired power level. The magnetic Anthracite Grey Twist Pad® is removable and ready to transform your hob into a creative and easy-to-clean hotspot!

## Home Connect Features

### HOME CONNECT

Control your hob directly from a Smart Device App or Voice Command.

### FAVOURITE BUTTON

Personalise your hob according to your preferences: using Home Connect you can add your favourite functions to your hob and operate them directly via the Favourite Button in the user interface. This allows you to switch the hood lights on or off with ease from your hob or combine different settings to easily cook your everyday dishes at a glance.

## Safety Features

### RESIDUAL HEAT INDICATOR

The moment you turn off your hob, the display offers a clever safety function, indicating which cooking zones are still hot or warm.

### SAFETY TIME SWITCH OFF

For safety reasons, heating stops after a preset time if not used. It is possible to customise this feature.

### COMBI ZONE

The Combi Zone allows you to combine two adjacent cooking zones into a single, larger zone. This flexibility enables the use of larger cookware or multiple pots and pans simultaneously, accommodating various cooking needs.

### TOUCH CONTROL

Simply select a zone then swipe your finger across the control panel to select a heat mode.

### POWER TRANSFER

Move your pots, not your focus. Power Transfer recognizes the heat level and size of your pot, automatically transferring these settings to the new location when you move it. No more pushing and adjusting, a gentle tap is enough to confirm, keeping your focus on the essence of cooking – your intuition.

### POWER MOVE

With Power Move, you have the flexibility to move pots and pans between two or three heating zones to accommodate various cooking needs.

### FLEX INDUCTION

Flex Induction allows for flexibility with cooking by having larger cooking zones which automatically detect the size of the pans. this means you can use larger cookware like griddle plates or large caserole dishes with even heat distribution.

### HOB-BASED HOOD CONTROL

Our hob-based Hood Control is a convenient feature that creates real cooking comfort. When you start your hob, your hood will turn on automatically. To do so, simply connect your hob to your registered Home Connect account.

### CONTROL PANEL LOCK

Prevents unintended activation of the hob.

Venting Hobs

- Installed with energy efficient brushless motors that offer powerful but quiet performance.
- Can be installed in Recirculation or Ducted Out – 4 Ventilation solutions available.
- A larger Overflow container will hold up to 700ml and is integrated in the base of the appliance so will not impact on storage space below.
- To install in re-circulation mode no further components are required.

# Venting Hob Installation Options

For the full range of installation accessories see page 64 of the Appliance Line Drawings.

## UNDUCTED RECIRCULATION

### Why use Unducted Recirculation

- Easy and quick to fit
- Less parts
- Cost effective

Requires no reduction in depth to the bottom two drawers and allows for more design flexibility, for example, floating islands.

Automatic run on of the extractor fan at min power level dries the filters and continues air flow through the service void, removing any potential moisture for extra safety.

Full Depth Drawers Possible

### Installation considerations

#### What do I need?

- 4 x cleanAir filters and telescopic slider.
- These are supplied as standard with all inductionAir Plus appliances.

#### Good to know

- Telescopic slider ventilates air from the appliance into the service void. Max expansion of slider 80mm.
- Min requirement of service void 25mm, recommended 50mm min.

#### Important to note

- This option is NOT suitable for installations with non insulated walls.
- This is the ONLY installation type that uses the telescopic slider.

## PARTLY DUCTED RECIRCULATION

### Why use Partly Ducted Recirculation

Required when the distance from the back of the appliance to back of the base unit void is greater than 80mm.

Suitable for installations with non insulated walls or where damp has been an issue.

Maximum drawer depth 513mm with 70+cm worktop

### Installation considerations

#### What do I need?

- 4 x cleanAir re-circulating filters. Supplied with appliance.
- Starter Kit 1 **Z861KR0** or 2 **Z861KR1** depending on the work surface depth.

#### Good to know

- Partly Ducted Recirculation takes the air down into the plinth and ventilates in through the plinth cavity.
- This requires greater depth work surface or reduced depth drawers.
- The 94mm ducting height cannot be changed to a slimmer version (reduces effectiveness) using an adaptor, as the 94mm space is still needed for the 90 degree turn from the horizontal to the vertical.

#### Important to note

- Starter Kits 1 and 2 provide all the required ducting and connectors for this mode of installation.
- The appliance may be fitted with another manufacturers ducting that has a rounded radius (please check compatibility before purchase). You will still need to purchase a (**Z821PD1**) diffuser.

## FULLY DUCTED RECIRCULATION

### Why use Fully Ducted Recirculation

Required when the distance from the back of the appliance to back of the base unit void is greater than 80mm.

Gives total peace of mind for non insulated walls or where damp has been an issue.

Maximum Drawer Depth 513mm with 70+cm worktop

### Installation considerations

#### What do I need?

- 4 x cleanAir re-circulating filters. Supplied with appliance.
- Starter Kit 1 **Z861KR0** or 2 **Z861KR1** depending on the work surface depth
- To fully duct to the plinth an additional straight channel and a connector are required. A 500mm ducting section should be sufficient in most cases depending on worktop depth.

#### Good to know

- Full Recirculation kit takes air down through the plinth and out into the room via a plinth vent.
- This requires greater depth or reduced depth drawers.
- The 94mm ducting height cannot be changed to a slimmer version (reduces effectiveness) using an adaptor, as the 94mm space is still needed for the 90 degree turn from the horizontal to the vertical.

#### Important to note

- The appliance maybe fitted with another manufacturers ducting that has a rounded radius (please check compatibility before purchase). You will still need to purchase a (**Z821PD1**) diffuser.

## DUCTED OUT EXTRACTION

### Why use Ducted Out

Allows the removal of heat and moisture created by cooking, as well as grease and odour.

An improvement of extraction rate over recirculation modes\* 615m³h recirculation 622m³h ducted out

\*As per test parameters for the energy label declaration.

Maximum Drawer Depth 513mm with 70+ worktop

### Installation considerations

#### What do I need?

- Starter Kit 3 **Z861KE1** (Includes 4 acoustic filters, radius bend, connector and 50cm straight channel).
- To complete your installation we can provide additional ducting lengths, connectors and adaptors.

#### Good to know

- It is also possible to use a fully ducted system, out of the kitchen.
- The acoustic filter kit is still required and is accessed the same way as the recirculation options.
- The Venting hob has been tested with a ducting run of 8 metres with 3 x 90 degree turns and maintaining efficient performance.
- We don't currently offer an external grid to go on the outside wall – this needs to be sourced independently.

#### Important to note

- The appliance maybe fitted with another manufacturers ducting that has a rounded radius (please check compatibility before purchase) You will still need to purchase (**Z811DU0**) x4 acoustic filters.

Induction Cookware Accessories Range

Excellent accessories that perform as well as your hob does.

This range of Induction Cookware Accessories are designed to perfectly fit Flex Induction and Induction hobs. The rectangular shapes perfectly fit into the flex zones.

All accessories are oven-proof up to 220°C with a non-stick coating that cooks your food perfectly while also being easy to clean.

The pans are designed to be easily stacked to maximise your storage space.

Double Flex Pans Set (4 Pans)

- Includes:
- Flex Pan Large
  - Flex Pan Medium
  - 2x Flex Pan small with lid.

Z9404FF0

Single Flex Pans Set (3 Pans)

- Includes:
- Flex Pan Medium
  - 2x Flex Pan small with lid.

Z9403FF0

Large Pan

Very large frying surface for cooking big portions like for meat fish and more.

Z9401FF0

Teppan Yaki

- Oven proof up to 220C.
- Excellent non-stick properties
- Even heat distribution
- Easy to clean

# Flex Induction Accessories

Spanning the length of your Flex Induction zone, our accessories are designed to inspire you in the kitchen. From everyday cooking to theatrical displays, there’s an accessory to bring out the best in your favourite dishes.

Product	Description	Material	Code	Part Number
<div>Griddle Plate</div> 	Surface Area 41.5 x 26.5cm Ideal for cooking steaks, fish, flatbreads and sliced vegetables, an induction griddle plate offers considerably more flexibility than a standard square griddle pan. All accessories within our induction range are easy to clean and dishwasher safe.	Cast Iron	Z9416X2	17000339
<div>Oval Roaster</div> 	With our roaster and steam accessory, it's possible to steam on a NEFF induction hob too. Ideal for preparing delicate fish and vegetables, steam cooking is a great way to prepare healthy, nutritious dishes. Oven and dishwasher safe.	Stainless steel	Z9410X1	00573879
<div>Steam Rack for use with Oval Roaster</div> 		Stainless steel	Z9415X1	00576118

# Saucepans

Ferrous metal saucepans are required for use on an induction hob. To check if a saucepan can be used with an induction hob use our quick magnetic test shown below. NEFF saucepans have been tried and tested to ensure that they offer optimum performance with NEFF hobs.

Product	Description	Material	Code	Part Number
<div>3 Piece Pan Set</div> 	2 x pots, 1 x Pan	Stainless steel	Z943SE0	17004098
<div>4 Piece Pan Set</div> 	1 x Saute pan, 2 x Pots with lids, 1 x milk pan	Stainless steel	Z9404SE0	17005721
<div>6 Piece Pan Set</div> 	2 x Saute pan, 3 x Pots with lids, 1 x milk pan	Stainless steel	Z9406SE0	17005724
<div>18.5 cm Non Stick Frying Pan</div> 		Cast Iron	Z9428FE0	17005718

# Guide To Gas Hobs

## Gas Hobs

AVAILABLE IN 90CM, 75CM AND 60CM SIZES.

Featured model: T27CS59S0 N70 75cm Gas Hob

## Gas Hobs Finishes

Ceramic glass on stainless steel trim

Stainless steel finish with panel insert

Black finish

Black tempered glass

Steel

## Gas Features

### FLAME SELECT®

Cook everything just right with 9-level Flame Select®. With Flame Select® the gas flame adapts to your cooking, offering precise control every time. For the first time ever, cooking with gas is as easy as cooking on an electric hob.

### POWER LEVEL DISPLAY

Some gas hobs benefit from a host of features that are usually found on ceramic hobs, including an LED display. The residual heat indicator displays if there is any residual heat on the hob. In the event of a problem with the individual burner the indicator lights also act as warning lights.

### HIGH SPEED BURNERS

Provide a surge of extra power; particularly useful for boiling a large pan of water quickly.

### WOK BURNER

The secret of Chinese stir fry cooking is heat and speed. Our Domino wok (N23TS19N0) delivers 6.0kW.

### FLAME CONTROL

The flame failure safety device shuts down the supply of gas to the hob if the flame goes out for any reason. The automatic reignition uses a heat sensor to detect if the flame goes out and, if so, will automatically attempt to reignite.

### CAST IRON PAN SUPPORTS

Firmly hold the pan above the flame, leaving space between the base and the burner. They're used on the majority of our models because of their robust and sturdy nature and tolerance to prolonged contact with heat.

### EASY GRIP CONTROLS

Ergonomically designed to be gripped and turned easily, even with wet or greasy hands.

### SIMMER SETTING

Excellent for slow simmering, almost all of our gas hobs have a very low burner with a maximum of just 1.0kWh.

# NEFF VENTILATION *Range*

## Ventilation Solutions – Our Guide

Ventilation is a key consideration in every kitchen - the Hob and Hood are a focal point of all cooking setups. The kitchen design and layout will dictate the Ventilation solution that is perfect for your kitchen

NEFF have a clear and comprehensive range that can be installed in every kitchen and the following chapter will give full details of the Ventilation solutions available.

Solutions for each installation requirement are grouped together. Each sub category presented in width order to assist in choosing the correct size for the kitchen design and to complement a NEFF hob. Product specification, Accessories and Installation details then follow.

## Why NEFF Ventilation?

**Performance** – NEFF focus on extraction performance and have options to suit all kitchen styles. Depending on whether using induction or gas there is an option for every hob.

**Design** – this is as important as Performance in a kitchen as the style of the hood needs to match the style and aesthetics in the kitchen – NEFF have a broad range of hoods that can be the focal point of the kitchen or installed neatly in furniture.

**Connected** – Using Home Connect allows the control of the hood to be done by voice or your phone making the cooking experience easier. Features such as Climate Control & Hob Hood control are further options for easy use of the Hood.

**Installation** – all NEFF hoods have been designed with the installation front of mind. With ducting and filters to match the installation solution – it's easy to navigate the range and order the appropriate kit. There are also installation videos to assist.

# Your Guide to Control Types

## Home Connect

Compatible with Amazon Alexa and Google Assistant.

## Touch Control

Featured on selected models in the N90, N70 and N50 Collections. Touch Control flawlessly complements our ovens and compact appliances. An LED display is also available with selected Touch Control models.

## Push Button

Our classic hoods feature simple, sleek and easy to use push button controls. Available across selected models in the N30 Collection.

## Remote Control

Available across all Ceiling Hood models.

## Rocker or Slider Switch Control

Available on our N30 Telescopic and Canopy models, our rocker or slider switch control offers a simple and straight forward setting navigation that's neatly concealed within the hood furniture.

## Soft Touch Control

Available across selected models within the N70 and N50 Collection, our Soft Touch Control hoods allow for greater control over power levels. Selected models also feature a white LCD screen.

## Rotary Switch Control

Featured on selected Canopy Hood models within our N70 Collection, our Rotary Switch Control features a pop-out dial with 3 levels of power to choose from. When not in use the dial can be neatly popped back into place.

# Key Functions Guide

## Features

### HOME CONNECT

Control all functions and settings of your hood directly from your smart phone and voice control for the ultimate connected cooking experience.

### HOB HOOD CONTROL

The Hob Hood Control allows the hood to be directly controlled from the hob. This means the hood turns on when you start cooking and, in automatic mode, can automatically regulate the power level for the best performance with the lowest noise – it also means you no longer need to worry about adjusting the hood and you can focus on your cooking.

### CLIMATE CONTROL

Detects the amount of steam and smells using a sensor attached to the motor and automatically sets the most effective power level to extract it.

### AMBIENT LIGHT

Illuminates your kitchen in the light that suits the occasion best. Choose from 31 colours to change how your kitchen looks and, most importantly, how it makes you feel.

### EFFICIENT DRIVE MOTOR

Our Efficient Drive motor brings harmony to the kitchen. It's whisper-quiet and powerful too. Now you can focus on your cooking, and your guests, while your extractor keeps your kitchen calm, clean and serene.

### NEFF SILENCE BUTTON

The unique noise reduction function reduces the fan noise by a couple of decibels, ensuring that the kitchen stays quiet while you cook and entertain your guests. This function can be used at any fan setting except fan setting 1.

### SATURATION INDICATORS

Take the stress out of guessing, this function will prompt you if the grease filters should be cleaned. If the hood is installed in recirculation, this will also indicate when the charcoal filters need replacing.

### BOOST POSITION

For our sleek angled glass and flat hoods, receive an extra boost of extraction performance in special cooking situations, for example when frying meat or fish. The front panel can be slightly opened during cooking to a defined extraction boost position in order to increase the steam catching rate of the hood and keep your kitchen free from steam.

## Functions

### AUTOMATIC AFTER-RUNNING

Continues running at a low speed for 3-30 minutes before turning itself off. Perfect for keeping fresh air in the kitchen post cooking.

### INTENSIVE SETTING

Boosts the extraction rate to the maximum level to cope with particularly demanding cooking conditions.

### ELECTRONIC POWER LEVEL DISPLAY

The sleek display clearly shows the selected fan power level setting.

### NEFF FRESH AIR

Runs an automatic air exchange programme, turning the hood into power level 1 for 5 minutes every hour for as long as required.

### AUTOMATIC REVERT

Automatically reverts the hood back to a lower power level after approximately ten minutes of being on the intensive setting.

### SOFT LIGHT

Brightens or dims the lights as it's switched on or off; just press and hold to adjust the level of brightness.

# Installation Options

The best way to remove steam and odours is to extract the air out of the room through ducting. Unfortunately, in apartments or where the hood is too far away from an outside wall, this may not be possible. In this case, the only alternative is to recirculate the air. Stale air is sucked through a grease filter, before being purified in a charcoal filter, and then pumped back into the kitchen via an opening in the hood.

Recirculation

### Recirculating

Removes between 70-95% of odours depending on filter used. Requires changing of charcoal filter on a regular basis or a longer-lasting Regenerative filter for certain models can be used.

Extraction

### Ducted

Removes up to 98% of odours in an optimal installation. Requires planning of ducting (ducting to be sourced separately), however doesn't require a recirculation charcoal filter.

## Use the following equation to calculate your extraction rate:

Volume of kitchen (length x width x height) eg. 4m x 3m x 2.5m = 30m<sup>3</sup>

6 x volume in normal operation and 12 x volume in intensive operation.

Please note that these are recommended estimates only to be used as a guide. This assumes a 2.5m standard ceiling height with 12 air changes per hour to match to an intensive extraction rate.

## Regenerative Recirculation Filters

The new Regenerative Charcoal Filters give you a long lasting filter, thanks to a regenerative process using your oven, and can even be installed without a chimney piece if preferred. Benefit from up to 95% odour reduction when in recirculation mode.

## Identify your extraction rate

Your extractor needs to circulate the air in the room 6 times in normal operation, 12 times in intensive operation, per hour. Use the below to help identify the required extraction rate which can then be used to select the appropriate extractor.

	2.5m	3m	3.5m	4m	4.5m	5m
2.5m	16m <sup>3</sup>					
3m	19m <sup>3</sup>	23m <sup>3</sup>				
3.5m	22m <sup>3</sup>	26m <sup>3</sup>	31m <sup>3</sup>			
4m	25m <sup>3</sup>	30m <sup>3</sup>	35m <sup>3</sup>	40m <sup>3</sup>		
4.5m	28m <sup>3</sup>	34m <sup>3</sup>	39m <sup>3</sup>	45m <sup>3</sup>	51m <sup>3</sup>	
5m	31m <sup>3</sup>	38m <sup>3</sup>	44m <sup>3</sup>	50m <sup>3</sup>	56m <sup>3</sup>	63m <sup>3</sup>

# Recirculation Filters

We offer a range of recirculation filters that are available depending on the model of hood you choose. Featuring powerful odour reduction rates and performance benefits, our new regenerative filters can last up to 10 years and are regenerated through a heating process in the oven every 4 months.

TYPE :	Standard Odour Filter	Cleanair Plus Filter	Long Life Regenerative Filter
			
ODOUR REDUCTION	Up to 85%	Up to 95%	Up to 95% (Up to 86% if installed without a chimney)
RECOMMENDED EXCHANGE	Approx. 2 times per year	Approx. once per year	Approx. once every 10 years
KEY BENEFITS	<ul style="list-style-type: none"><li>Simple installation</li><li>Anti-fish treatment</li></ul>	<ul style="list-style-type: none"><li>Up to 3dB (A) sound reduction</li><li>Better extraction performance</li><li>Anti-fish treatment</li><li>Removes over 99% of all pollen</li></ul>	<ul style="list-style-type: none"><li>Up to 3dB (A) sound reduction</li><li>Regenerated in the oven every 4 months recommended (2 hours 200°C)</li><li>Better extraction performance</li></ul>
INSTALLATION	Behind grease filter, inside the hood	Extra module attached to hood chimney (stainless steel) New Chimney Hoods: Integrated plastic module fitted inside the chimney piece	Extra module (as per CleanAir filter) onto chimney or inside chimney. 'Chimless' installation possible (Angled and Flat only)
INSTALLATION WITHOUT CHIMNEY POSSIBLE?	Yes (Angled and Flat only)	Yes (Angled and Flat only)	Yes (Angled and Flat only)

CleanAir Plus and Regenerative filters not available for all styles of hood. Additional module may be required to house the filter. Images for example only, different filters may come in a different size and style.

## Installation

The following points should be observed for optimum ducted extraction results and low noise:

1. Ensure any pipe elbow bends are at least 30cm from the hood ducting opening.

2. Avoid reducing the diameter or area of the ducting.

3. Use wide-angled pipe elbows, but keep the number used to a minimum.

4. Only install pipes with smooth, even inner surfaces. If a flexible hose has to be used, ensure it is pulled tight to smooth out the ridges before fixing.
5. Use ducting pipes with a diameter of at least 120mm, but ideally 150mm.

6. Keep piping to a minimum – use the most direct route to an external outlet.

7. Make sure that there is an adequate supply of fresh air to replace the air ducting out of the kitchen, i.e. windows that can be opened, doors to adjacent rooms, air bricks. Problems with installation may occur if points 1-7 are not observed.

## Easy Mounting System

Thanks to an easy wall-mounting system, selected hoods can be installed quickly and securely by one person. Rotating offset 'cam' fixings make it possible for positional adjustments of up to 6mm, helping to get the hood level and stable. (Not available on all our hoods.)

# Island Ventilation Solutions

Open plan kitchens are growing in popularity and these solutions can create that open plan aesthetic.

## Glass Draft Hood

- Modern version of a downdraft hood is a highly effective worktop ventilation solution that vanishes completely when not in use.
- A unique solution with impressive design and performance credentials
- Guided Air technology has an additional motor with a fan that creates a “V” shaped curtain of air behind the screen – pushing down cooking vapours which are captured by the extractor fan.
- Fully Automated Extraction – using Climatecontrol sensor to detect the amount of humidity and grease in the air – automatically adjusting to the correct level.
- Ambient lighting – using the Home Connect app the colours can be changed to suit the room or the vibe in the kitchen.

## Venting Hob

- Designed with open plan living in mind – Extremely silent powerful ventilation.
- Generous glass surface area with a slim integrated vent creates a flexible work surface which is simple to clean.
- Easy to remove Grease filter can hold spillages of up to 200ml.
- Grease filter and holder and dishwasher safe for easy & effective cleaning
- Flex Induction & Combi Zone models available
- Choice of Controls – Twist Pad®, Touch Twist® or Touch control®.

## Seamless Hob Installation

- To create a unified hob and hood installation the Glass Draft Hood can be combined with selected Induction hobs.
- Available for both 90cm and 80cm widths.

## Ceiling Hood

- Designed for modern island and peninsula kitchen layouts.
- Provide high performance with low noise levels.
- Easy adjustable installation for different thickness of ceiling material and construction
- Flush mounted
- Can be used in extraction or recirculation mode
- 360° turntable motor – easy access for ducting and power connection once installed.
- Can be used with Clean Air or Regenerative filters.

Worktop  
Installation

- Installation can be Recirculated or Ducted out.

<sup>1</sup>Power automatically reverts back to normal setting after intensive. <sup>2</sup>A type of recirculating kit is required if recirculating. <sup>3</sup>Air Flow and noise declarations made in line with CECEC Code of Conduct. <sup>4</sup>Measured according to EN61591 on largest pipe diameter. <sup>5</sup>Sound power measured according to EN60704-3 on largest pipe diameter. <sup>6</sup>From top of pan supports. Depending on the model, a 'Recirculating odour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions.

Venting Hobs

- Installed with energy efficient brushless motors that offer powerful but quiet performance.
- Can be installed in Recirculation or Ducted Out – 4 Ventilation solutions available.
- A larger Overflow container will hold up to 700ml and is integrated in the base of the appliance so will not impact on storage space below.
- To install in re-circulation mode no further components are required.

# Wall Mounted Ventilation Solutions

Hoods installed on the wall can be used to create a design feature in themselves, adding a focal point to your kitchen while offering powerful extraction for all types of cooking.

## Angled Glass

- Inclined front with dimmable LED mood lighting.
- Fully automatic air sensor.
- Whisper quiet ventilation.
- Chimless or Chimney options.

## Pyramid Chimney

- Traditional styled.
- Broad variety of sizes & specifications.
- Quiet operation.

## Box Chimney

- Classic box design.
- Highly Efficient.
- Quiet operation.
- LED low energy lighting.

## Slim Pyramid Chimney

- Flatter profile.
- Broad variety of sizes & specifications.
- Quiet operation.

¹Power automatically reverts back to normal setting after intensive. ²A type of recirculating kit is required if recirculating. ³Air Flow and noise declarations made in line with CECEd Code of Conduct. ⁴Measured according to EN61591 on largest pipe diameter. ⁵Sound power measured according to EN60704-3 on largest pipe diameter. ⁶From top of pan supports. Depending on the model, a 'Recirculating odour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions.

# Integrated Furniture Ventilation Solutions

## A great fit

When cooking up a meal for friends and family the last thing you want is the noise of a hood in the background. Our integrated furniture hoods are built to operate on low noise levels while maintaining high air quality in your kitchen. Choose between telescopic and integrated hoods to find the hood that fits your kitchen, and cooking style, best.

## Integrated Design Hood – Invisible design for that seamless finish

- Designed to fit neatly under an overhead unit.
- Integrated Hoods are discreet and save valuable kitchen space.
- Extra Storage Space – The hood’s T-shaped design creates extra space for many large and handy items up to 10kg on each side.
- Reduced Noise: the low-noise motor makes it possible to listen to your own kitchen story.
- Your kitchen deserves the best in lighting design. Our hoods with LED Lighting not only look good, they help you focus, whatever you’re cooking.

## Telescopic Hood

- For a smaller kitchen where space is at a premium, these clever hoods pull out from underneath a cabinet when required.

## Integrated Hood

- These hoods look like they’re part of the furniture.
- Hidden behind a unit door, they simply pull out when needed.

# NEFF COOLING *Range*

## Let's keep it fresh

### Fridges and freezers for food lovers.

- Fridges and Freezers are essential for any home chef and finding the perfect Cooling solution is easy with the NEFF Cooling Range.
- The range is comprehensive in both the features and the installation.
- NEFF's range of cooling appliances focus on Built In integrated models with a range of Fridge/Freezers in a variety of sizes and splits and a Range of Single Fridges and Freezers. This means that a customer can choose just how much fridge and freezer space and the range of hinges allows scope to include in the kitchen design – neatly integrated as part of the overall kitchen.
- The NEFF range is packed with features to really care for ingredients with the customer configuration in mind. With many key cooling features and flexibility, a customer can build exactly what they want.
- The range is clearly laid out in height order leading with Fridge/Freezers followed by the single appliance range.
- And for those that want the extra capacity the newest additions to the range to cope with the largest demands are the XL & XXL – designed to accommodate the largest shop.
- Peace of mind built-in – many of NEFF's cooling range are covered by our **5 year** warranty – clearly marked in the matrix tables. Further warranty information can be found on NEFF Customer Service pages 184-185.

# Built-In Fridge Freezer Guide

## Fridge Freezers

Comprehensive Range of models to suit customer needs.

- Available in two heights
  - Standard 177cm in various “splits” 70/30, 60/40, 50/50 of Fridge to Freezer.
  - The New 193.5cm tall XL & XXL range – available in a 60/40 split of Fridge to Freezer.
- Available in Fixed & Sliding hinge to accommodate design and kitchen furniture.
- All Fridge Freezers have a 4-star rating.

# Hinge Types

## Hinges to suit all kitchen designs

Our doors can be right-hinged or left-hinged in order to suit your kitchen design.

## Fixed Hinge & Soft Close Hinge

The benefit of this type of hinge is that it carries more weight – ideal for kitchen cabinetry made from heavier hard wood. This hinge also allows the door to open at a wider angle, making the fridge cavity easily accessible. All NEFF doors close automatically when at an angle of approximately 15-20° and selected models have the benefit of Soft Close.

A fixed hinge offers you additional capacity in the refrigerator, leaving you more room for your food.

## Sliding Hinge

Our sliding hinge feature sits between the appliance and the furniture door and is secured by a series of brackets. As you open the furniture door, the appliance door is also opened via the sliding bracket design.

Additional space is required on the inner side of the cabinet to make way for the door hinge.

# Built-In Single Fridge & Freezer Guide

## Single Fridges & Single Freezers

For customers looking to install a single fridge and freezer this range will suit their needs.

- Available in several heights to create a bespoke cooling solution.
- Extensive installation combinations – Side by Side, Over & Under & Built Under options available.
- All appliances have a 4-star rating.

# Size Guide & Installation Options

## Combination and layout solutions for installing your cooling appliances

With so many kitchen styles to choose from, at NEFF we've catered for all spaces and lifestyles. With the option to build a cooling solution to your requirements, our installation options are designed to offer the ultimate flexibility. From side-by-side fridge and freezer installations to over-under stacked installations, it's easy to incorporate NEFF appliances into your overall kitchen design.

## Installation Solutions

- The range can be installed Over/Under to create a bespoke solution.
- Depending on fridge and freezer capacity required the range can be installed to create the solution.
- The range can be installed Side by Side and the Tall Fridge & Freezer create equal fridge and freezer capacity.

### Over/Under installation options

### Side by Side installation options

Other Styles

American-Style Fridge Freezer

- Side by Side configuration with Anti-fingerprint stainless-steel doors.
- No Frost – No more defrosting your freezer.
- Ice Dispenser – Ice cubes and crushed ice are at your fingertips when plumbed in.
- Fresh Safe – Fridge drawer for flexible storage of your fresh fruit and vegetables

Built Under Solutions

Wine Cabinets

- Available in two widths; 30cm – 21 bottle capacity /60cm – 44 bottle capacity
- 2 in 1 Temperature Zone (5°C-20°C)
- Individual temperature zones to store white and red wine.
- Interior Light

Built Under Fridges & Freezers

- 82cm High to install under a worktop
- Super cooling with Home Connect app
- Some models with 4 star freezer section
- LED lighting

Cooling Functions

**MULTIPLE COOLING SYSTEMS**  
Separate cooling circuits for independent temperature control, to prevent the transference of odours and/or humidity between the fridge and freezer cavities.

**NO FROST**  
No Frost freezers automatically react to any signs of frost so it never has a chance to build up. With a No Frost freezer air is blown from the back wall and circulates over food items. As a result, there is no condensation or build up of frost and food does not freeze together.

**SUPER FREEZE**  
Go ahead and lower the temperature in your freezer to prevent your already frozen goods from warming up just by being in the same drawer. Super Freeze lowers the temperature temporarily before switching back automatically. Simply activate "Super Freeze".

**INTELLIGENT COOLING**  
Uses a range of innovative sensors to calculate the quantity of food in the fridge with the outside temperature. The fridge then adjusts the internal cooling power accordingly.

**DOOR OPEN**  
Door Open and high temperature alarm systems alert you if the door has been left open or a power cut has occurred. Ideal for mitigating food wastage.

**DOOR OPEN ASSIST**  
Open your fridge with a simple push or a single word. The push to open mechanism is a perfect match with handle free kitchen furniture

**MULTI AIR FLOW COOLING**  
Greatly improves the circulation of air around the fridge, regulating the temperature and humidity levels and eradicating condensation build up, so that your food stays fresher for longer.

**LOW FROST**  
Low Frost improves performance and reduces frost build up in an energy efficient way. It also provides more storage space due to there being no internal evaporator and you may only need to defrost your freezer every 2-3 years.

**ECO AIR FLOW**  
Our Eco Air Flow system treats your ingredients as lovingly as you picked them. Eco Air Flow circulates the air evenly in your fridge to keep flavours delicious under ideal cooling conditions.

**SUPER COOL**  
Allows for the increase in temperature that occurs when fresh food is added. As soon as the food is cold, the fridge will readjust to the normal temperature.

**FRESH SAFE**  
Our Innovative 0°C Fresh safe preservation system extends the life of food times to reduce waste.

# Design Features

## Unique to NEFF, making your life even easier

### EASY CLEAN MAGNETIC DOOR SEALS

The magnetic door seals on all of our refrigeration ranges are removable, making them easy to clean and/or replace if necessary.

### SOFT CLOSE

With Soft Close, the fridge door closes automatically when open at an angle of 20° or less. With a soft closing mechanism, it's the ideal addition to kitchens with soft close cabinets.

### ANTI-SPILL TRIMS

Effectively hold up to a pint of liquid in case of accidental spillage. Food is protected below and the clean-up process is a little less messy.

### WIRE SHELF

Completely unique to NEFF, our new Wire Shelf feature is ideal for securely storing jars and bottles stacked on their side.

### EASY LIFT SHELF

With Easy Lift shelving, it's possible to adjust shelves with just one hand – even when they're fully loaded. Perfect when unloading shopping or introducing freshly prepared dishes to the fridge.

### EASY LIFT DOOR STORAGE

Easily adjust door storage with just one hand. Combined with Easy Lift Shelves, your fridge space won't restrict your favourite foods and drink.

### EASY ACCESS SHELF

The retractable glass shelf allows for easy loading and unloading as well as better access to your food. Ideal for putting the finishing touches to those delicate desserts.

### BOTTLE RACK

Always have a chilled bottle on standby for those impromptu get-togethers.

### VARIO SHELF

Designed to offer complete flexibility in your fridge, sectioned glass shelves can simply be separated and slid underneath when not in use. Ideal for larger dishes, with space left over for a convenient condiments storage area at the back.

## Home Connect

Simply use your phone or tablet to control your XXL fridge, even when you're on the go. Use your Home Connect app to get smart benefits from your fridge. Control your fridge on the go and easily set it to ECO or Holiday Mode, even after you've left home. Simply smart.

## Individual Temperature Control

Tastes vary - and so do the ingredients. Individual Temperature Control enables you to set a higher temperature when no fresh greens, reds or yellows are sitting on their chilled shelves. Simply choose an eco-friendly mode with a higher temperature for your fridge via the electronic control panel, while the Individual Temperature Control keeps the freezer up and running.

## Door Alarm

Say goodbye to the frustration of accidentally leaving the fridge door open. Equipped with both visual and acoustic alarms, the fridge signals that it needs another gentle shove for sustainable cooling. Even if the door is slightly ajar, the fridge will request a gentle nudge to maintain optimal temperatures. And for added convenience, if your fridge is integrated with the Home Connect app, you'll receive notifications directly to your smartphone.

## Freezer Light

Just find what you are looking for: Our Freezer LED light illuminates every frozen ingredient in your drawers. And if your appliance is Home Connect enabled, you may additionally adapt the light intensity to your liking. Also, you may activate the emotional light which adds a lovely light effect to your kitchen even when the doors of your fridge and freezer are closed.

## Fresh Safe 1 <0°C>

Enjoy a variety of storage options to suit your preferences, including a flexible drawer for fruits and veggies. In addition, the unit features a dedicated compartment for meat and fish that's kept at an optimal temperature up to 0°C.

# NEFF DISHWASHER

## Range

### 5 Year Warranty

Peace of mind built-in – all of NEFF’s dishwashers are covered by our **5 year** warranty – clearly marked in the matrix tables. Further warranty information can be found on NEFF Customer Service pages 184-185.

## Dishwasher Solutions

### Clean dishes, whatever your wishes

- Range includes fully integrated, semi-integrated and slimline.
- Flexible installation solutions including 81.5cm and 86.5cm Vario Hinge options.
- Comprehensive range of cleaning features including Chef 70°C and Eco 50°C as standard.

### Full Size Dishwashers

Designed to be as flexible and accommodating as possible, our full-sized dishwashers have adjustable baskets and racks to hold large or awkward items, as well as a choice of wash cycles, from intensive to delicate.

Featured model:  
S187ZCX03G  
N70 60cm Fully  
Integrated  
Dishwasher

### Slimline Dishwashers

Where space is an issue, our Slimline model **S875HKX21G** is ideal. Just 45cm wide, it fits into the smallest of spaces, but still offers all the features of a full size model. It’s surprisingly roomy and able to cope with nine place settings at a time.

Featured model:  
S875HKX21G N50  
45cm Fully Integrated  
Dishwasher

Feature Highlights

- All dishwasher models come with Home Connect
- Water consumption – 60cm width 9.5L/45cm width 8.5L
- 10 year anti-rust warranty
- Noise level 42 -48dB

Dishwasher Flexibility

Flex Baskets

Fitting casserole dishes, large pans, full dinner sets and tall-stem wine glasses into a dishwasher can be a challenge – especially when you’re cleaning your most robust cookware alongside delicate items. Our Flex Baskets are designed to accommodate those bulkier items and provide an even, thorough clean. We have two options of basket flexibility to choose from.

Flex 1

Two foldable flip tines in the top basket and two foldable flip tines in the bottom basket offer quick and easy loading flexibility for safe positioning of glasses, cups, pots and pans.

Flex 2

Two foldable flip tines in the top basket and four foldable flip tines in the bottom basket offer quick and easy loading flexibility for safe positioning of glasses, cups, pots and pans.

Flex 3

Six foldable flip tines in the top basket and eight foldable flip tines in the bottom basket offer quick and easy loading flexibility for safe positioning of glasses, cups, pots and pans.

Flex Cutlery Drawer

Transform your third loading level into a versatile cutlery drawer. It handily clicks into place whenever you need a tailor-made space for your forks, knives, and small kitchen utensils.

Rack-Matic

Allows the top basket to be raised and lowered as needed as well as run on an angle to cater for the wine glasses at the end of the night.

# Key Functions Guide

## Design Features

- 

**AQUA STOP**  
Protects inlet and outlet hoses from leakage. A safety valve prevents any more water from entering the dishwasher and overflowing – even when the machine is off.
- 

**OPEN DRY**  
No need to manually open the door of your dishwasher to allow the load to cool off. Open Dry takes care of that by opening the door automatically during the drying phase.
- 

**INFO LIGHT**  
Info Light projects a red light onto the floor that showcases clearly that this dishwasher is in operation. Info Light is available for fully integrated dishwashers.
- 

**HEAT EXCHANGER**  
Ensures that the drying phase of programmes is energy efficient and glassware is fully protected by preventing extreme temperatures.
- 

**DOOR OPEN ASSIST**  
Door Open Assist is the perfect solution for anybody looking to achieve a sleek, handleless design in their kitchen. Simply press lightly on the front of the unit to open the dishwasher door. Ideal for a range of integrated designs, Door Open Assist is also a convenient addition to busy kitchens. Electronic child lock can be activated, creating a double push to open.
- 

**ZEOLITH**  
The Zeolith compartment, located under the dishwasher cavity, contains natural minerals. During the drying phase, these minerals absorb moisture and release hot air. This ensures efficient drying and leaves an impressive sheen on items of all shapes and sizes, including difficult-to-dry plastic goods. And because they recharge during the next washing cycle, you get great, longlasting drying results, without the maintenance worries.
- 

**GAP ILLUMINATION**  
Gap Illumination shines a soft white light on the side of the dishwasher to indicate the dishwasher is running. If you pause the cycle or open the door, the light will start blinking. This feature is available across Vario Hinge models.
- 

**TIME LIGHT**  
Time Light projects the remaining time as well as the ongoing process of the programme on any type of kitchen floor. Time Light is available for fully integrated dishwashers and washing machines.
- 

**VARIO HINGE**  
Vario Hinge lets you install your dishwasher at floor level or higher. When you open the door, it lifts up the front panel so that it opens freely and doesn't make contact with base underneath. Now you don't have to compromise on kitchen design, and your dishwasher will combine effortlessly with every other unit.
- 

**EMOTION LIGHT**  
LED lights in the front edge light up the dishwasher cavity.
- 

**GLASS CARE SYSTEM**  
Your dishwasher has a thing for delicate glassware, so it fine-tunes the water hardness to protect your glassware with never-ending care. A combination of the Glass 40° programme and Extra Shine option will clean your items impeccably without worry. With the introduction of anti-slip surfaces, silicon inserts and supports within Flex 2 baskets your glassware has never been more protected.

## Programmes

- 

**FAVOURITE**  
Choose a programme, option, or combination on your dishwasher and save it as "Favourite", either via your Home Connect app or directly on the dishwasher.
- 

**1 HOUR 65°**  
No need to stack your dinner or party dishes for hours, simply load the dishwasher again. This function cleans and dries dishes in only 60 minutes. Spend more quality time with family and friends while enjoying food and tales using your favourite tableware.
- 

**EASY CLEAN**  
Give your dishwasher a deep clean with the new Easy Clean programme. Simply run the high temperature setting together with some dishwasher cleaner in an empty machine to remove limescale and grease from inside the cavity.
- 

**SILENCE**  
'Silence on demand' whenever you wish for peace and calm select this option via the Home Connect app. On activation the cycle will pause for 30 minutes. You have the flexibility to restart the cycle at anytime if you wish, after 30 minutes the programme will resume.
- 

**AUTOMATIC PROGRAMMES**  
Take the worry out of selecting exactly the right programme and let the machine do it for you. Automatically changes settings to ensure you get the best clean for your load.
- 

**CHEF 70°C**  
With a hotter setting and a powerful spray, the Chef 70° programme is perfect for cleaning even the dirtiest pots, pans and cooking utensils. Items placed in the lower basket are subject to higher spray pressures, eliminating the need for soaking and effectively removing even the most stubborn stains.

## Special Functions

- 

**EXTRA SPEED**  
Depending on the selected programme you can reduce the running time of your dishwasher's programme to up to 66%. Make more of your quality time and enjoy optimum cleaning and drying results - while Extra Speed takes care of the load up to three times faster.
- 

**EXTRA SHINE**  
By increasing the amount of water during the rinse cycle and extending the drying phase, water marks are prevented and the drying result is further improved.
- 

**POWER ZONE**  
Activates higher wash temperatures and increases spray arm pressure in the bottom basket, while maintaining a more gentle wash in the top basket.
- EXTRA HYGIENE**  
Provides a hotter final rinse, with 70°C water for 10 minutes, to effectively cleanse items such as chopping boards and cooking utensils\*.

**10-YEAR, ANTI-RUST WARRANTY**  
Due to advanced materials and manufacturing technologies, in addition to our standard appliance warranty, we're able to provide a free-of-charge warranty against the rusting-through of the dishwasher's inner cavity.

\*Please note this programme does not sterilise.

# NEFF LAUNDRY RANGE

- Comprehensive range of laundry solutions.
- 3 types of laundry appliances
  - Integrated Washing Machines
  - Integrated Washer Dryers
  - Freestanding Washer Dryer – ideal for a utility room
- All feature our signature innovations.
- Features that suit an open plan kitchen installation with laundry as part of it include;
  - Time Light to see when the cycle has ended.
  - Anti Vibration Side panels to minimise noise.
- All features detailed in the following section.

## 5 Year Warranty

Peace of mind built-in – many of NEFF's laundry appliances are covered by our **5 year** warranty – clearly marked in the matrix tables. Further warranty information can be found on NEFF Customer Service pages 184-185.

## Key Functions Guide

### Key Features

#### INTELLIGENT WATER SYSTEM

Efficient washing is made simple with our built-in load sensor. With up to 256 load levels distinguished and a flow sensor for detecting the kind of textile, the amount of water used is tailored to your wash.

#### SENSOR DRYING

Continuously monitors the drying performance using sophisticated sensors to prevent overheating and over drying. The dryer stops automatically when the correct level of dryness is reached to deliver the finest fabric care and reduce ironing.

#### TIME LIGHT

The time remaining of the wash cycle is clearly projected on to any floor surface. So you don't have to open the door to see when your washing will be finished. Perfect for open plan kitchens. Featured on model W544BX2GB.

### Additional Features

#### TIME DELAY

Allows you to programme the machine up to 24 hours in advance to suit any schedule or to take advantage of off-peak electricity rates.

#### DRUM LIGHT

The new drum interior LED light is a big help when unloading your fully-integrated NEFF built-in washing machine. It lights up the inside brightly enough so you'll never overlook another item of laundry.

### Programmes

#### STAIN-REMOVAL PROGRAMME

Banish even the most stubborn stains with our stain-specific programmes. With dedicated settings for red wine spillages, tomato splashes and butter/oil residue, there's no need to worry about cooking-related stains.

### Options

#### LESS IRONING

Reduces the creasing of clothes as the water is gently removed from the wash with a light interval spin at the end of the cycle.

#### EXTRA RINSE OPTION

Available on almost every programme, it's especially helpful for sensitive skin.

#### ANTI-VIBRATION SIDE PANELS

Our new side panels increase stability and reduce vibrations during even the fastest spin cycle. With a 3-step system which absorbs motor vibrations, centres unbalanced laundry and compensates for vibrations on the side walls, you benefit from low noise washing with every load.

#### ECO BAR / ECO BAR PLUS

Know how much energy you are using with the new Eco Bar feature, available on selected freestanding appliances. The LED bar displays five possible consumption levels. With Eco Bar Plus, energy and water consumption is displayed, giving you an indication of resources used on your chosen programme and options. The fewer LEDs illuminated, the more energy you are saving.

#### AQUA STOP / AQUA SECURE PLUS

Protects inlet hoses from leakage. A safety valve prevents any more water from entering the washing machine.

#### RELOAD FUNCTION

If you need to add or remove an item after the programme has started, you can pause the cycle by pressing the Start/Reload button. The machine will check whether you can open the door and, if so, it lets you. To resume operation, just press the Start/Reload button again.

#### DRUM CLEAN WITH REMINDER

Prevent odours and germs with our handy Drum Clean reminder. When the machine detects a consecutive number of low washing temperatures (<40°), you'll be prompted to start the Drum Clean programme.

#### FLEXI TIME

Cuts programme times by up to 30%. Simply select the cycle you wish to run and then select Flexi Time.

Some features are relevant for freestanding models only. For full details please refer to the website.

Here at NEFF, we understand that although our kitchens and appliances are designed to cope with even the most exacting cookaholics, sometimes you need to turn to us for help. Whether you need a visit from one of our engineers, some spare parts for your NEFF appliance or just some helpful advice, we're here to talk – around the clock\*.

REPUBLIC OF IRELAND CUSTOMERS PLEASE CALL  
**01450 2655**

VISIT OUR WEBSITE AT  
**NEFF-HOME.COM/IE**

We're available 7 days a week. Our specialist advisors are available Monday to Friday 8am to 6pm, Saturday 9am to 5pm and Sunday 9am to 4pm. Calls are charged at the basic rate, please check with your telephone service provider for exact charges. In some areas we may use an approved service partner and the process may vary for repairs carried out by our service partners.

Please note that due to the implications of COVID-19, our contact hours and service availability are subject to change. For the latest information and updates on our services please visit our COVID-19 Service Update page on: [neff-home.com/uk/coronavirus](https://neff-home.com/uk/coronavirus). Republic of Ireland customers should visit: [neff-home.com/ie/coronavirus](https://neff-home.com/ie/coronavirus).

\*Please note that after the working hours stated only a limited number of advisors are available.

## RECEIVE THE HIGHEST STANDARDS OF SERVICE FROM NEFF

NEFF appliances are well-known for their quality and we believe that our customers deserve customer service to match. We provide expert repairs both inside and outside the manufacturer's warranty period and we can offer advice on choosing an appliance which will enhance your favourite dishes.

NEFF is a division of BSH Home Appliances Limited, a company registered in England and Wales under company registration number 01844007, with registered office at: Grand Union House, Old Wolverton Road, Wolverton, Milton Keynes, Buckinghamshire, MK12 5PT.

## Register my appliance

### REGISTER YOUR APPLIANCE AND WARRANTY

It is important that you register all your kitchen appliances to ensure that the manufacturer has full details in the event of an important product update. You can find out more about registering your appliances online at:

**[registermyappliance.org.uk](https://registermyappliance.org.uk)**

All NEFF appliances are supplied with a two-year manufacturer's warranty. Please call 0800 519 2115 (Republic of Ireland 01230 0344) to register your NEFF warranty and find out more about extending your cover.

From time to time, NEFF may present additional warranties on either products or defined components of a product which are time limited offers. To check if your product qualifies, please contact us, or go online at [neff-home.com/uk/service/care-protection-and-parts/warranties](https://neff-home.com/uk/service/care-protection-and-parts/warranties)

Purchase selected models between 20.03.24 - 31.03.25 and register your appliance for **5 years** warranty.

Please be aware that the above telephone number is managed by Domestic & General Services Limited who administer the warranty registration process on our behalf.

## ARRANGE A VISIT FROM A NEFF ENGINEER

NEFF home appliances are built to the highest standard, but if you do need a visit from a NEFF engineer, we are here to help. Our locally based engineers are employed and trained by NEFF, which gives them unrivaled knowledge and expertise to repair NEFF appliances.

In some areas we may use an approved service partner to carry out repairs on our NEFF appliances, where the repair process may vary.

You can easily book and manage your engineer visit online at: [neff-home.com/uk/service/repair/book-a-repair-online](https://neff-home.com/uk/service/repair/book-a-repair-online) or via our call centre (see contact details above). Republic of Ireland customers should call: 01450 2655.

Calls will be answered 24 hours a day, 7 days a week. Calls are charged at the basic rate, please check with your telephone service provider for exact charges.

## ACCESSORIES AND CLEANING PRODUCTS

You can find everything you need for any appliance on the NEFF online store. It's here where you'll find our tested and approved cleaning and care products, along with other accessories ranging from a Glass Holder for your new dishwasher to a Teppan Yaki for your hob, or a new set of Telescopic Rails.

Shop online at: [neff-home.com/ie/store](https://neff-home.com/ie/store)

## ONLINE HELP AND PRODUCT ADVICE

Prefer to go online? You can visit our support content at: [neff-home.com/ie/service](https://neff-home.com/ie/service) to quickly find the help you need. We cover questions about usage and maintenance of your appliance, as well as tips on getting started and installing your new appliances. You'll also be able to access your user manual at any time.

## GENUINE NEFF SPARE PARTS

NEFF keeps a comprehensive range of replacement spare parts for up to ten years. You can browse our exploded view diagrams on our store or speak to an advisor on the phone to help you locate and buy the spare parts you need.

# Notes

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a textured appearance with visible creases, wrinkles, and some minor discoloration or foxing, particularly towards the edges. The left edge of the page shows the binding of the book, with some of the adjacent page visible. There is no text or other markings on the page.
