Priklučivanje uređaja, Slika 9

- Napon: videti na pločici sa tipom.
- Priklučivanje u skladu sa dijagramom za priključivanje:
 - BN: braon
 - BU: plava
 - GN/YE: žuta i zelena
 - BK: crna
 - GY: siva
- U zavisnosti od vrste priključka eventualno morate da promenite redosled fabrički isporučenih stezaljki. Za to eventualno morate da skratite stezaljke i da uklonite izolaciju, kako biste umetnuli stezaljku koja povezuje dva kabla.

Napomena: Proverite spremnost uređaja za rad: ako se na displeju uređaja prikazuje **U400, E05 13 ili E**, to znači da uređaj nije propisno priključen. Isključite uređaj iz napajanja i proverite priključak kabla za napajanje.
